

Southern District Meeting Minutes

5/13/2010

The Southern District held this meeting at the Monona Terrace in Madison in conjunction with Central States exhibition. Roy Swanke, Southern District Chair opened the meeting acknowledging the vendor sponsors and letting everyone know they were able to attend the Central State Exhibits and the Water exhibits.

The morning session began with a presentation by Tom Kruzick from William Reid on Level Technologies in Lift Stations. Tom went over the various level sensors including floats, probes, submersible pressure transducers, bubblers, ultrasonic transducers and radar. The benefits and concerns were presented for all systems.

The next presenter was Jim Thretheway from BioIonix. Jim provided information on a method for disinfecting and removing pharmaceuticals from waste water. The BioIonix process disinfects and oxidizes contaminants in liquid streams by applying a propriety electrochemical field to the liquid as it passes through the reactor module. Some of the applications are brine chiller disinfection, shower water disinfection and reuse, chiller water (red water) disinfection, inside-outside bird washer disinfection, final chiller poultry water disinfection, flume water disinfection, canning line cooling water disinfection, leverage bottling, cooling water disinfection for reuse, rinse water disinfection without residuals, disinfection for reuse of cleaning solutions, cooling tower water disinfection, cooling water disinfection and slime removal, packaged wastewater plant final disinfection, trace pharmaceutical and personal care product removal.

The last presenter was Doris Thiele from the DNR. Doris went over the status of thing at the DNR. Below are the contacts and the map showing geographically who the contact will be in your area. Doris also provided a help line number 1-800-963-7463.

Wastewater Specialists

Ken Denow
N7725 Highway 28
